Don't let unsightly power outlets ruin a beautiful design

Place power where it's needed and eliminate the need to cut into a beautiful backsplash with an Angle Power Strip or Lighted Power Strip fixture tucked up underneath a cabinet or shelf. Designed for kitchens, baths, offices, laundry rooms, and more.

Power that disappears at eye level

Angle Power Strip fixtures tuck neatly under cabinets, keeping outlets hidden from view while delivering power exactly where it's needed.

At first glance, the Angle Power Strip isn't visible.

From a lower viewpoint, you see the Angle Power Strip hidden out of sight!

Eliminate those unsightly power outlets with sleek, hidden Angle Power Strip fixtures

BEFORE

AFTER

Preserve the beauty of the backsplash

Don't interrupt your beautiful backsplash with ugly outlets; install an Angle Power Strip fixture to add more outlets that are tucked up out of sight for when you need them most.

Tucked Away When It's Not

Angle Power Strip

Lighted Power Strip

Angle Power Strip and Lighted Power Strip Fixtures

- 4 finish options (Black, Bronze, Satin Nickel, and White)
- USB charging options
- Standard lengths and configurations make it easy; custom options also available
- Combine light and power with a Lighted Power Strip fixture—tunable-white and single-white options available
- 5-year warranty, UL listed
- Designed and built in Kearney, Nebraska

Eliminate unsightly power outlets and illuminate the kitchen with lighting and power tucked away together underneath the cabinets.

A simple way to add hidden power where you need it

A simple, code-compliant way to add convenient power exactly where it's needed. Designed for commercial and residential applications, this plug-in solution provides power for up to four or eight devices—with 15 amp receptacles and USB-A/C charging—while keeping countertops clean when not in use.

Easy-to-Install LED Lighting Products

Simplified components

Fewer connectors, less excess wire, cross-compatible controllers and power supplies

Easy-to-install LED lighting products

Designed for all skill levels; tap into existing wiring or plug into any outlet. Clean installs with no excess wire, jumpers, or leads. Includes step-by-step videos, and a wireless controller that mounts like a standard wall switch.

Stress free set-up

Our trained team of designers and technicians help lay out exactly what products and supporting components are needed, even with complicated lighting specifications.

For Any Kitchen or Bath Application!

Create personalized lighting

Cut-to-length program provides lighting to your specifications: choose Kelvin temperature, light output, length, and more. Control with wireless, wired, or smart home systems to create a personalized lighting experience in any space.

LED Linear Fixtures make installation clean and easy for any application

Smart home integration made easy

Our WAV Smart Control™ devices seamlessly integrate with any Zigbee-based smart home system—including Amazon Alexa and Control4—with no additional downloads required.

Use with a smart home speaker for voice control (not sold by Task Lighting)

Form meets function

Sleek and low-profile, LED Linear Fixtures deliver consistent, high-quality light for any space—from under-cabinet lighting to closets—with a polished finish that elevates every design

Flexible by design

Flexible, creative, and virtually invisible once installed; tape lighting fits any space, any style, and any budget. Available in a variety of light outputs, temperatures, and even RGB!

Endless creative applications

Backlight countertops, bar tops, backsplashes, or wall panels by installing Flexible Sheet Light behind translucent materials such as stone, acrylic, and glass

Clean installs & hidden hardware

Control temperature AFTER installation

Tunable-White Lighting featuring TandemLED[™] technology is an adaptable lighting solution that allows the Kelvin temperature to be set AFTER the cabinets and lighting are installed. Help your designer and contractor customers match LED lighting to the color scheme of any room or let the homeowner adjust to fit their mood.

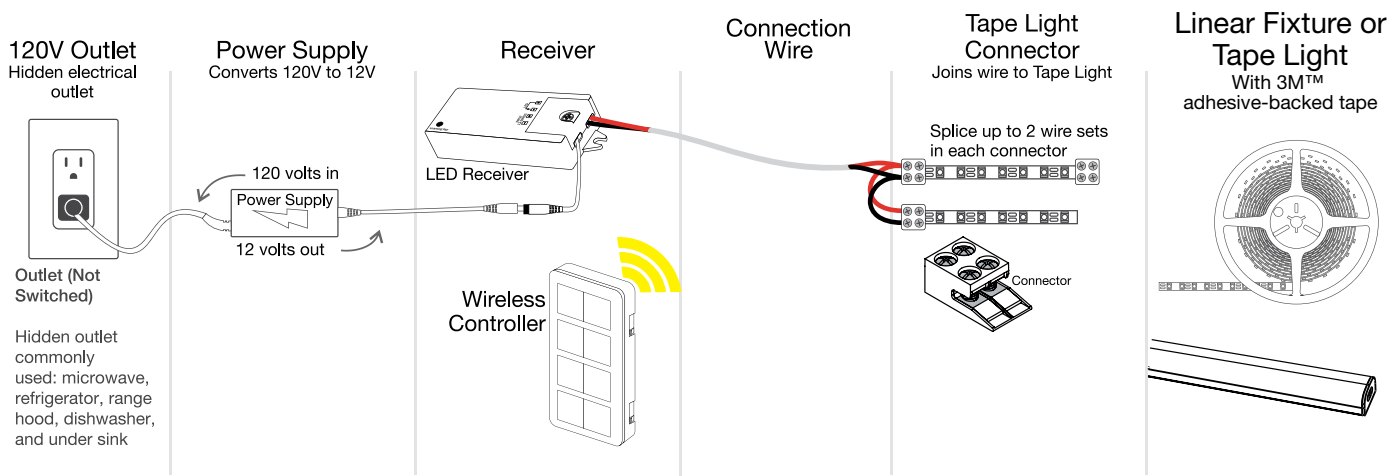

Warm White 2700K

Daylight White 5000K

Installation made quick and easy with 5 simple components

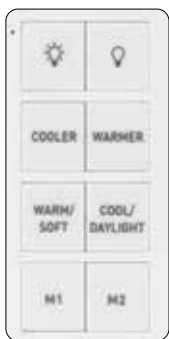

Step 1. Connect Power Supply to Receiver

Step 2. Connect Receiver to Tape Light

Step 3. Mount Tape Light and Pair Controller

Lighting control systems

Control single-white, tunable-white, or multi-color lighting with a wide variety of controls: wireless dimming system, smart home control, motion activated sensors, switches, or wall mount switch/dimmer.

Easy to connect and control LED lighting

Connect LED lighting to a smart home device and use that device's smart home app to control lighting on a smart phone or tablet, no separate app needed.

"Alexa, set the kitchen to Warm White"

(Smart home device not sold by Task Lighting)

Lighting that's designed to make an impact in any space!

- Under the upper kitchen cabinets to light countertop workspaces
- Above the kitchen cabinets for attractive ambiance
- At the floor under kitchen and bath cabinets for evening illumination
- Colored lighting on decks, in a bar area, bath, or spa to set the mood
- In a closet, illuminating clothing and shelving
- Behind translucent stone like onyx or crystal quartz, creating a glowing effect

Like the lighting in these photos?

It's easy to do the same in any space. Order a plug-in power supply, LED lighting, connectors, wire, and a wireless control system to easily install this set-up.

Tunable-White LED Linear Fixtures make every decision easy

Looking for a light that works for any space and any application? We recommend the Tunable-White LED Linear Fixtures as a premier solution. Simple plug-and-play installation, along with the ability to change the white light temperature AFTER installation and at any time, make these fixtures the prime option to install in any space.

Lighting made easy

The simplest configuration for easy installation is an LED Linear Fixture, plug-in power supply, receiver, and lighting control option.

LED Linear Fixture + Power Supply, Receiver, & Wire + Lighting Control

Designed for simplicity

Every fixture comes fully assembled; install the mounting clips, attach connection wire, and snap into place. Pair with Angle Power Strip fixtures to further enhance the space!
