NEW U-SHAPE DRAWER BOX MAXIMIZES UNDER SINK STORAGE

An ideal solution for custom or semi-custom bath cabinetry

BOSSIER CITY, LOUISIANA, June 10, 2025—Hardware Resources, a leading manufacturer of quality products for the kitchen, bath, and closet industries, has expanded its line of dovetail drawer boxes to include **U-Shaped Rollouts and Drawer Boxes** designed to maximize under sink storage space in bathroom vanities.

Available in four configurations for 30" or 36" wide vanity-depth sink base cabinets, the U-shaped cutout measures 12" wide by 10" deep, providing ample space for most plumbing configurations. The standard drawers are designed to provide a three-drawer configuration that is ideal for creating a furniture style vanity look in custom bath cabinetry projects. The rollout drawers can be mounted to the cabinet floor or fixed to a shelf inside the sink base cabinet.

All U-shape rollouts and drawer boxes are made with 4" tall UV finished white birch and feature dovetail joinery. They are assembled, stocked, and shipped nationwide from Bossier City, Louisiana. The U-shape drawer boxes are compatible with HR Max™ undermount slides and clips (sold separately) and other major brands due to the factory notching on the back. The U-shape rollout drawer boxes ship with pre-installed HR Max clips, HR Max undermount slides, and wooden runners. They also include four screws for easy installation.

Add the convenience of a drawer to bathroom sink cabinets with a U-shaped rollout.
