Hardware Resources Introduces Gold Finish Closet Rods and Brackets

The gold finish provides an elevated look for personalized closet spaces.

[BOSSIER CITY, LOUISIANA – October 7, 2026] – Hardware Resources, a leading manufacturer of quality products for the kitchen, bath, and closet industries, has expanded its product offering to include gold tone closet rods and brackets. The closet rods are available in 92” lengths in both round and oval shapes with corresponding brackets, adding three new rods and 14 new brackets to the lineup. Round rods are available in quantities of six, and oval rods come in quantities of 10.

“Interior designers are helping clients increase the functionality of spaces throughout the home by introducing storage solutions beyond the kitchen and bath,” said Amy Whalen, Product Manager for Organization Products at Hardware Resources. “Adding new finishes for closet rods gives them more flexibility to make personal spaces feel elevated.”

Gold-tone finishes have taken center stage across kitchens, baths, and closets by creating a look that is both warm and elevated. The new gold tone rods and brackets have been added to the 17 Squares closet configurator tool available for NorthPoint Closets. They also coordinate beautifully with Jeffrey Alexander® and Elements by Hardware Resources® pulls and knobs in Satin Bronze and Brushed Gold. Together, they deliver a cohesive look that feels effortless anywhere in the home.
