Installs easily in an existing kitchen
Complements existing kitchen cabinetry. No wiring or plumbing required; place island directly on existing flooring or carpet.

Options for tops
Butcher block tops are available for all islands. Edge grain tops are made in the USA using FDA approved food-safe materials providing a safe work surface for food preparation. Islands can be purchased without tops, so that a custom granite or marble top can be added.

Solid furniture-style construction
High quality wood materials and furniture-style construction. All materials used in Jeffrey Alexander islands meet the strict CARB2 certifications.

Full extension soft-close slides
Each island features upgraded slides. Full extension slides bring the drawer all the way out. Soft-close motion quietly self-closes the drawers on most models. Hidden undermount slides provide a clean look to drawers (ISL07 and ISL12 units).

Dovetail drawer boxes
1/2" thick solid hardwood material and dovetail joints make a box strong enough to hold anything from dish towels to small kitchen appliances. Drawer box and slides have a 100lb dynamic load rating.

Rich finishes
Multi-layer hand finishing process creates colors designed to coordinate and contrast with popular kitchen cabinet finishes.
